

Iowa's IDD Complex Care Needs Project ECHO

for Adults with Intellectual/Developmental Disabilities

Our Mission is to Improve Lives of Adults with IDD by Optimizing Care in Iowa

ECHO uses videoconferencing to connect interdisciplinary teams of specialists and subject matter experts. Together, the Project ECHO "hub" team and participants develop advanced skills and best practices through collaboration and case-based learning in an "all teach, all learn" environment.

Register & Submit a Case on Our Website

**Sessions
every
2nd and 4th
Thursday
1:15 - 2:30**

**Free
CME**

PARTICIPANTS WILL BE ABLE TO

- Establish collaborative relationships
- Increase ability to recognize medical and psychiatric illness
- Improve psychiatric, behavioral, and medical care
- Increase knowledge of causes and treatment of challenging behavior
- Increase awareness of behavioral interventions
